

POULTRY FEEDS GUIDE

Country Junction produces feed for both major producers and smaller operations, with specialization in making premixed, customized feeding programs for all markets, including organic poultry producers.

OUR FEEDS CONTAIN A PROPER BALANCE OF NUTRIENTS FOR EACH LIFE STAGE OF POULTRY PRODUCTION, WITH RATIONS FOR:

- Starting, growing and finishing meat-type birds
- Starting and developing pullets to becoming laying hens
- Laying hens to increase egg-production and shell quality

FEATURES AND BENEFITS

Though each feed contains its individual advantages you can be sure that from Country Junction your feed will be

- Nutritionally Balanced
- Formulated to provide the protein, energy, vitamins, and minerals in an optimal balance specific to the feeds purpose
- Our poultry and fowl feeds are formulated with whole grains and vegetable proteins without the use of animal byproducts
- The grains and grain products used in these feeds are from our Canadian Prairie region
